Engagement by Design

In this workshop, DR. DOUGLAS FISHER will provide a full-day professional development session focused on Engagement by Design.

Engagement by Design gives you a framework for making daily improvements and highlights the opportunities that will bring the greatest benefit in the least amount of time. You’ll learn about relationships, clarity, and challenge, including:

• How getting to know each student a little better can fundamentally change the classroom dynamics—and how to do that
• What it means to be an “intentionally inviting” teacher, and how it gives you an advantage in creating an environment conducive to learning
• How to bring more clarity to key aspects of your work—and how it can reap substantial rewards for you and your students
• How opening the culture to student voice—listening to students—is linked to academic motivation, and how to use it to shape your day-to-day planning
• The best ways to increase learning for your students, boosting the proportional value of their school year

Audience: Teachers, Teacher Leaders, TOSAs, Instructional Coaches, Department Heads, and Administrators

Dr. Fisher is a Professor of Educational Leadership in the Department of Teacher Education at San Diego State University and a teacher leader at Health Sciences High & Middle College. He is the recipient of an International Reading Association Celebrate Literacy Award, the Farmer Award for excellence in writing from the National Council of Teachers of English, as well as a Christa McAuliffe Award for excellence in teacher education. He has published numerous articles on reading and literacy, differentiated instruction, and curriculum design.
